## Useful Information

### Things to remember when closing your condo

1. Switch off circuit breaker on water heater.
2. Shut off main water valve.
3. Discontinue paper delivery or have a neighbor take it in.
4. Mail: The mailman will give you forms for forwarding or holding your mail at the post office.
5. Contact the telephone company for temporary disconnect of telephone.
6. Air conditioning: Find the setting that will give you a minimum temperature of 75 to 80 degrees and leave it there. Higher temperatures invite mildew. Someone should check the A/C periodically. Change filters every twelve (12) weeks. If you have a hydrometer, it should read 55 to 60 degrees relative humidity.
7. Bug Spray: Spray or have sprayed all areas, including drains, closets, and cabinets before leaving. If needed, leave a can of spray to be used every six (6) weeks, or arrange for the exterminator to get in.
8. Toilets: Cover top of bowl with saran wrap. Leave seat and cover up, or have someone come in once a week, turn on the main valve, flush the toilet, wait until the tank fills and shut off the water again.
9. Refrigerator: If refrigerator is empty, it can be left running. The dealer says this is better for the sealed unit. Turn off icemaker.
10. Dishwasher: Wedge door open about one inch. Before starting up upon return pour in one cup of water, because of the water-cooled seal in bottom of dishwasher.
11. Disposal: Pour a small amount of corn oil into disposal. Turn on and off quickly. Add more corn oil.
12. Stove: Throw circuit breaker to off position.
13. Lights: For protective purposes, leave a light on a timer or a 40-watt light bulb burning constantly.
14. Shutters: Close them up but remember darkness will promote mildew. Because of this, use a lower thermostat setting of 75 to 80 degrees.
15. Doors: Leave open enough to assure proper circulation. This includes room, closet, cabinet and shower doors.
16. Trash: Remove all trash from unit.
17. Don't forget your live plants. If you have someone watering them, leave the proper instructions.
18. Each Unit Owner who plans to be absent from his Unit during the hurricane season must prepare his Unit prior to his departure by (1) removing all furniture, plants and other objects from his patio, lanai, or balcony prior to his departure; and (2) designating a responsible individual to care for his Unit, should the Unit suffer hurricane damage, furnishing the Association with name of said firm or individual. Such firm or individual shall contact the Association for clearance to install or remove hurricane shutters.
